Finalist of a Bachelor's degree in Computer Engineering at Instituto Politécnico de Setúbal with good margin of progression. After three years of graduation without any failure, I belive I have acquired some theoretical and practical knowledge in several different areas of programming.

Some of the great capabilities I have is therefore the easy adaptability and versatility to new technologies and programming environments in a short time, and the quick intuition to act under pressure, acquired throughout the degree that kept me constantly challenged. During these three years I have been regularly requested, as an evaluation method, to develop many practical projects that I consider very important for the creation and deepening of the necessary bases for other future projects that i would like to integrate.

I am looking for a **professional or curricular internship** that can provide me a first experience in the labor market and where I will put into practice all the knowledge acquired during the graduation.

SKILLS

C#/ASP.NET
Java
HTML/CSS
SQL
React Native
Javascript
Python

RELATED INTERESTS

- Preference and most talented for the back-end strand
- Applications for mobile environment
- Video game development
- Learn more about the world of cybersecurity

OTHER SKILLS

- Easy to integrate and work in a team
- Very receptive to environments and technologies outside the comfort zone
- Quite familiar with version control system tools (Git) and project management tools (Jira e Confluence)
- Autonomous in delegated tasks and with a spirit of initiative to seek solutions
- Recurring use of many of the implicit programming best practices

WORK EXPERIENCE

AbleWin (Curricular Internship)
2018 (3 months)

Continental Lemmerz, Quinta do Anjo (Curricular Internship)
2019 (3 months)

QUALIFICATIONS

Bachelor's degree in Computer Engineering (a terminar)   Set 2019 - Present
Instituto Politécnico de Setúbal (IPS)
