WORK EXPERIENCE

Technical Consultant
CGI

05/2022 - Present

Tasks

- I have worked as a front-end and back-end developer on a few projects using Java, Groovy, and SQL.
- Detect and solve problems/bugs.
- Maintain software by the received feedback.
- Planning new improvements.
- Developing features and operations.

Internship
Continental Lemmerz

04/2019 - 06/2019

Tasks

- Under mentoring I was able to answer to any assignment in order to obtain professional experience.

Internship
AbleWin

04/2018 - 06/2018

Tasks

- Under mentoring I practiced concepts and techniques by completing small tasks in non-official projects.
- C#, HTML and CSS were the predominant programming languages used.

EDUCATION

Computer Science and Engineering
Polytechnic Institute of Setubal

09/2019 - 07/2022

SKILLS

C#   Java   SQL   Angular   JavaScript

Python   HTML   CSS   Groovy   React

PERSONAL PROJECTS

WebSite (12/2022)
- Designed to portray an interactive résumé allied to the opportunity to improve my web development skills.
- Implemented the Angular framework for a single-page client application, splitting the code into components to increase speed and performance.
- Tailwind was used to simplify CSS usage and keep style files small.
- Embraced a services-data approach for easier maintenance and dynamic data.
- The source code is available on my GitHub repository, which I used for version control and to host the website early on.
- Follow the link: ricardoliveira5ro.github.io
